The Mines mining engineering graduate program is predominantly for mining engineers and is directed toward the traditional mining engineering fields. Graduate work is centered around subject areas such as mine planning and development, computer aided mine design, rock mechanics, operations research applied to the mineral industry, environment and sustainability considerations, mine mechanization, mine evaluation, finance and management and similar mining engineering topics. Ranked as the No. 1 mining school in the world in 2016 and 2017 by the QS World University Rankings, Mines has distinguished itself by developing curriculum and research programs geared toward responsible stewardship of the Earth and its resources.

DEGREE OPTIONS

- **Doctor of Philosophy**: 72 credit hours, comprised of 48 credit hours of coursework and 24 credit hours of research. Students must also complete written and oral qualifying exams, present a thesis proposal and defend their thesis before the thesis committee.

- **Master of Science (thesis based)**: 30 credit hours, comprised of at least 21 credit hours of coursework and 9 credit hours of research.

- **Master of Science (non-thesis)**: 30 credit hours of coursework, comprised of a minimum of 21 credit hours from within the Mining Engineering Department.
SUBJECT AREAS

- Geomechanics, rock mechanics and stability of underground and surface excavations
- Computerized mine design and related applications
- Advanced integrated mining systems incorporating mine mechanization and mechanical systems
- Underground excavation, tunneling and construction
- Construction and project management
- Rock fragmentation
- Site characterization and geotechnical investigations, modeling and design in geoenvironmenting
- Mineral processing, comminution and separation technology
- Bulk material handling
- Mine ventilation
- Mine safety and health
- Corporate social responsibility
- Artisanal and small-scale mining

PROGRAM ADMISSION REQUIREMENTS

- A bachelor’s degree in some discipline of engineering from an ABET-accredited institution.
- Graduate Record Examination (GRE) is required. Applicants who have graduated from Mines within the past five years are not required to submit GRE scores.
- For international applicants or applicants whose native language is not English, a TOEFL score of 79 or higher (or 550 for the paper-based test, 213 for the computer-based test). In lieu of a TOEFL score, an IELTS score of 6.5 or higher will be accepted.
